## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's Appeal Brief filed 6/14/06 has been fully considered. Applicant's remarks regarding the rejection of 1-2 and 4-5 rejected under 35 U.S.C. 102(b) as being anticipated by Rexroad et al., US 5,582,266 are found persuasive. Claims 1-12 are now found allowable over the prior art made of record for reasons set forth herein below.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: 1-12.

Claims 1-12 are found allowable over the closest prior art of Rexroad et al. Specifically, the prior art of Rexroad et al., fail to teach or fairly suggest a net system made from cords of a water soluble yarn. Rexroad et al., teach a net system comprising nylon yarns which are dipped in a solution that causes shrinkage. However, said nylon yarns are not water soluble. An updated art search did not produce any substantial art for which to base and rejection and presently no motivation exists to combine references to form an obviousness type rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
